## PROFESSIONAL SUMMARY

Full Stack Developer specializing in Java, Spring Boot, React.js, HTML, Java Script, SQL, CSS and REST APIs with proven experience at Yalamanchili- Payments and Cards. Skilled in writing clean and maintainable code, debugging and collaborating with teams to deliver reliable software solutions. Strong fundamentals in OOP, data structures, algorithms and problem-solving with an eagerness to learn backend, cloud and modern development.

## TECHNICAL SKILLS

**Languages:** Java, Python, JavaScript  
**Frameworks:** Spring Boot  
**Web:** HTML5, CSS3, Java Script  
**Databases:** MySQL, PostgreSQL, Basic NoSQL  
**Tools:** Git, Postman, VS Code, Blue Prism (RPA)  
**Core Concepts:** OOP, Data Structures & Algorithms, MVC, REST APIs, System Design Basics

## PROFESSIONAL EXPERIENCE

**Java Full Stack Developer | Yalamanchili-Payments & Cards** May 2024 - Present  
Vizag, Andhra Pradesh, India

- Developed backend services using Java, Spring Boot to support payment processing modules with secure and scalable data handling.
- Built and optimized REST APIs for data exchange between services and client applications; improved SQL query performance.
- Contributed to UI development using HTML, CSS, JavaScript and integrated APIs for smoother workflows.
- Assisted and later independently handled tasks including bug fixes, testing, debugging, enhancements, and production-ready feature delivery.
- Participated in code reviews, collaborated with cross-functional teams, and supported feature delivery from requirements to deployment.

## PROJECTS

**Payment Gateway Simulation API | GitHub**  
Java, Spring Boot, REST APIs, MySQL, Postman

A backend system that simulates real world card payments, handling transactions, status checks and refunds through secure REST APIs.

- Developed a backend system that simulates card payment processing with secure transaction validation, status tracking, and refund workflows.
- Designed and consumed REST APIs to handle payment initiation, verification, and response mapping for internal services.
- Implemented JWT-based authentication, exception handling, and database persistence for transaction history.
- Optimized SQL queries to improve response performance and accuracy in a high-volume transaction environment.

**Employee Management System | GitHub**  
Spring Boot, React, MySQL, REST API

A full-stack application for managing employee records, featuring login, CRUD operations, and role-based access for admins and users.

- Built a full-stack application to manage employees with CRUD operations, search filters, and user roles.
- Developed RESTful backend services using Spring Boot and integrated them with a responsive frontend.
- Implemented Spring Security authentication and role-based access for admin and user modules.
- Configured structured project architecture and DB schemas to ensure scalability and maintainability.

**Task/Issue Tracker | GitHub**  
Java, Spring Boot, HTML, SQL

A mini project management tool that tracks tasks through workflow stages (To-Do → In-Progress → Done) with user and admin roles.

- Designed a task management platform to track tasks from creation to completion with status flow: To-Do → In-Progress → Done.
- Integrated authentication & authorization to separate admin and user activities.
- Used MVC pattern for clean structure, focusing on modular code, reusability, and unit testing.
- Enhanced backend performance by optimizing queries and implementing layered architecture.

CERTIFICATIONS & ACHIEVEMENTS

- **Python Internship** — Deeksha Technologies
- **Robotic Process Automation** — Blue Prism
- **Cloud Master Class** — Discovery Day
- Improved API performance with optimized SQL and backend logic.
- Delivered features on-time across sprints for payment processing modules.
- Resolved critical bugs, improving system stability and reliability.
- Transitioned from trainee to full-time developer with consistent performance.

EDUCATION

**BSC in Computer Science (MSCS)**  
Vikrama Simhapuri University, Nellore, Andhra Pradesh, India | CGPA: 8.3/10.0

2020 - 2023

STRENGTHS

- *Problem-solving & analytical thinking*
- *Clean coding & debugging*
- *Team collaboration & communication*
- *Eager to learn new tools & technologies.*
